

INCWADANA YOLWAZI EYENZELWE ABAGULI UKWALIWA YI-LATEX

- Ilatex yincindi yemvelo ephuma kuhlobo lomthi werabha oyi*Hevia brasiliensis*.
- Ngokuqhelekileyo olu hlobo lokwaliwa luchaphazela abasebenzi bezonyango nabanye (umz. abalungisi beenwele) abasoloko besebenza ngeemveliso ezenziwe nge*latex*. (liglavu neecatheter).
- Umntu owaliwa *yilatex* kungenzeka uyaliwa nazeyzinye izinto.

KWENZEKA NJANI UKUBA UMNTU ALIWE YI-LATEX?

Iiprothini zelatex aziqheleki emzimbeni. Ukuba umntu usoloko edibana neentwan-ntwana zeeprothini zale ncindi yomthi wamasi kubangela ukuba kuveliswe izibulala-ntsholongwane ezinobungozi ze-IgE. liglavu ezifakwe umgubo ezibhedlele zenza kube lula ukusezela iiprothini zelatex. Umthetho uyakuthintela ukusetyenziswa kweeglavu ezilolu hlobo kwiziBhedlele zikaRhulumente kwiRiphablikhi yoMzantsi Afrika.

ZIINTONI IIMPAWU ZOKWALIWA YI-LATEX?

Izinto ezibonakala ngoko nangoko ezibonisa ukwaliwa

- izigxala,
- ukurhawuzela kwamehlo,
- ukurhawuzela kwempumlo okanye ukuba nemfixane,
- ukuthimla,
- ukutswina kwesifuba, ukukhohlela, isifuba,
- ukudumba komqala,
- i-anaphylaxis

UKWALIWA OKUBONAKALA EMVA KWEXESHA ELIDE/ INGXAKI YOLUSU

- Izigxala ezibomvu, ezirhawuzelayo/ezineenkohko kwiindawo ezasulelekileyo

UXILONGO LWENZIWA NJANI?

- Imbalu yeempawu ezithi zibonakale kwisithuba seyure emva kokudibana neeglavu okanye ezinye iimveliso zerabha kubonisa ukuba kungenzeka umntu uyaliwa *yilatex*.
- Oku kungangqinisiswa ngokwenziwa kohlolo Iwegazi okanye Iwesikhumba.
- Uhlolo lokuthi phafu kancinci ngento ebukhali ngamaxeshu onke lumele Iwensiwe esibhedlele apho kukho izinto zokunyanga.
- Kusenokuba yimfuneko ukwenza uhlolo Iwendawo ethile xa kurhaneleka ukuba kukho ingxaki yolusu

KUNYANGWA NJANI UKWALIWA YI-LATEX?

Ukuba uyaliwa yi/*latex*, kubalulekile ukukuphepha ukudibana ne/*latex* ukuze kuthintelwe ukunwenwa kweempawu.

- Nxiba isacholo esibonisa ukuba zinto zini na ongalungelani nazo ngokwasempilweni
- Phahta isitofu se-adrenalinu kunye nee-antihistamine
- Kuphephe ukudibana ngokungqalileyo okanye ngokungangqalanga ne/*latex*.
- Yazisa ugqirha wakho nogqirha wamazinyo
- Chazela usapho neetshomi zakho ukuba uyaliwa yi/*latex*.
- Tsalela umnxeba kwindawo yasekuhlaleni esebeza ngeemeko zikaxakeka, i-ambulensi nesibhedlele ukuze uqinisekise ukuba banazo iiprotokholi zokungasebenzisi i/*latex*
- Yazisa umntu okwenza iinwele xa ngaba kusetyenziswa iikhemikhali ezithile zokujika okanye ukuqaqambisa umbala othile ezinweleni zakho.

UNGAKUPHEPHA NJANI UKUDIBANA NE-LATEX ESIBHEDLELE?

- Kubalulekile ukuchonga ze uphephe iindawo eziyingozi kakhulu ezinokubangela ukuba uvukwe ziimpawu zokungalungelani ne/*latex*.
- Abantu abangalungelaniyo ne/*latex* bamele bangaze bazinxibe iiglavu ezenziwe ne/*latex*.
- Abantu abaliwayo yi/*latex* bamele basebenze kwindawo engenawo umgubo.

UMELE WENZE NTONI XA KUFUNEKA WENZIWE UQHAQHO OKANYE ENYE INTO YONYANGO?

- Umele umazise ugqirha wakho, ugqirha wamazinyo okanye ingcali yokudoma.
- Kubalulekile ukuba ube ngumguli wokuqala kuluhlu lwabaguli abaza kuya kwigumbi loqhaqho ngaloo mini ukuze uphephe nayiphi na i/*latex* ekusenokungaphephiki ukungena nayo kwigumbi loqhaqho

KUTHIWANI NGOKUDIBA NE-LATEX NGAPHANDLE KWASESIBHEDLELE?

- I/*latex* isetyenziswa kakhulu emakhayeni ezi mini.(umz. amavili eebhayisekile, iirabha zokubophelela, izinto zokudlala ezenziwe ngerabha, iibhotile zokufaka amanzi ashushu)
- I/*latex* iyafumaneka nakwizixhobo ezietyenziswa emidlalweni/ekuzonwabiseni (umz. isiphatho sephini lokudlala, iibhola zesquash, iiglavu zabatlali begalufa, iimpahla zokungena emanzini)
