A registered industrial pharmacist or postgraduate pharmacist tutor/trainer with at least two years' experience in industrial pharmacy.

- ▶ **Practical training**

As stipulated by Council.

- ▶ **Education and Panel**

As stipulated by Council.

Industrial Pharmacy as a Speciality

Exit level outcomes for an Industrial Pharmacist

Exit Level Outcome

Exit Level Outcome 1:

Typically, candidates at this level will be able to integrate and apply specialist knowledge in the establishment, critical evaluation, monitoring and managing Corrective and Preventative Action (CAPA), problem solving and change control. Such activities should be performed by making autonomous decisions relating to complex organisational or professional issues.

Exit Level Outcome 2:

Typically, candidates at this level will be able to demonstrate and use a wide range of specialised skills to address complex and challenging, practical and theoretical problems within the field of industrial pharmacy, and demonstrate an understanding of the consequences of any solutions or insights generated and /or implemented. Candidates should be able to design and implement appropriate and creative solutions in addition to addressing intended and unintended consequences of all potential interventions. Candidates should also be able to design and implement cutting edge research strategies, conduct comprehensive and critical reviews of current research and practices, utilise a range of specialised skills, discourses and technologies to produce insights and knowledge in the field of Industrial Pharmacy. Candidates should also be able to defend ideas generated during their research and communicate such ideas to a wide of audience.

Industrial Pharmacy as a Speciality

Exit level outcomes for an Industrial Pharmacist (contd.)

Exit Level Outcome

Exit Level Outcome 3:

Graduates achieving this outcome will be able to develop and enhance their own learning strategies to sustain independent learning, professional development and interactions. As such, the graduate should be able to operate independently and take full responsibility / accountability for their own work, and be able to lead, initiate, and implement systems while ensuring efficient resource management and good governance practice.

Exit Level Outcome 4:

Typically, graduates achieving this outcome will demonstrate an understanding of ethical standards and the legislation relevant to the pharmaceutical and healthcare industries. The candidate should take full responsibility and accountability for their decisions and actions.

Industrial Pharmacy as a Speciality

Recognition of previous Postgraduate qualifications for specialisation

- ▶ Enquiries from persons with postgraduate qualification.
- ▶ Matters also raised during consultation processes.
- ▶ Council resolved in October 2014 that:
 - ⊖ Candidates who have achieved a relevant master's degree and who wish to register within one of the specialities, must request an accredited provider of the professional master's degree(s) registered for specialisation purposes for assessment or recognition of prior learning;
 - ⊖ The provider issue a certificate of competence when the candidate has met the relevant professional master's degree qualification requirements;
 - ⊖ Council recognise and register, for the period of practical training, those candidates deemed competent by the accredited providers of the specialist qualifications;
 - ⊖ The Office of the Registrar prepare a document on recognition of foreign qualifications for specialisation.

Industrial Pharmacy as a Speciality

Way Forward

- ▶ Qualifications are approved
- ▶ Qualification to be published in the government gazette for comments
- ▶ Regulations relating to Specialist pharmacists - in a draft form.

Pharmacy Support Personnel

The National Qualifications Framework Act, No 68 of 2008

Council Elections 2018

How is Council composed?

- ▶ 9 elected pharmacists
- ▶ 16 people appointed by the Minister of Health
 - 9 pharmacists – provinces
 - 1 representative of the Department of Health
- 2 pharmacists – pharmacy schools
- 4 members who are not necessarily pharmacists, of which one is appointed because of his/her knowledge of the law

Council Elections 2018

Process

- ▶ Nominations were called for from all pharmacists registered with Council (including Community Service Pharmacists and Specialist Pharmacists). 72 valid nominations were received.
- ▶ Ballot packs will be distributed FROM July 2018 - September 2018 by courier to the courier address on the register
- ▶ Ballot packs included a ballot form, identification envelope and information booklet with photos and brief CV of all the nominees
- ▶ Every registered pharmacist could vote for no more than 9 candidates
- ▶ The counting of the votes took place on 26 September 2018 and the following persons were elected:
 - DU TOIT, Johannes Stephanus (Jan) SCHELLACK, Natalie
 - EKSTEEN, Margaritha Johanna (Mariet) TRUTER, Ilse
 - KILIAN, Pieter Johannes VENTER, Christina Aletta

- MAIMIN, Jacqueline Ann WOLMARANS, Petrus De Wet
- MALAN, Sarel Francois
- ▶ Council's concern is the lack of sector representation on Council and the appearance that sectors failed to identify and support at least ONE nominee per sector for election on Council.
- ▶ Moving forward, sectors and associations representing the various sectors of pharmacy should identify and mentor at least one person for Council elections in 5 years time, and then encourage the members of such association to support and vote for such person.

Talk to your pharmacist

Message from the Registrar
e-Pharmaciae Vol 5 No 1

2018 is proving to be a very busy and exciting time for pharmacy in South Africa. The Registrar, Mr Amos Masango, calls on all pharmacists to vote in the 2018 Council Elections, reminds the profession of the importance of Pharmacy Month and invites everyone to participate in the 3rd National Pharmacy Conference in October 2019.

Details > 6 August 2018

Message from the President
e-Pharmaciae Vol 5 No 1

The recent announcements of Cabinet's approval and the subsequent gazetting of the National Health Insurance and Medical Schemes Amendment Bills by the Honourable Minister of Health, Dr Aaron Motsoaledi, signals the beginning of an era – an era that brings about the realisation of the vision of delivering a universal, quality healthcare system to the people of South Africa.

Council decisions (Oct 2017 – May 2018)
e-Pharmaciae Vol 5 No 1

Council dealt with a number of issues during its meetings in October 2017, February and May 2018. Some of the matters were resolved directly with the affected parties and others appear as separate articles in this edition of e-Pharmaciae.
