GLOSSARY

Throughout this brochure you will find references to the terms below and terminology and this Glossary of Terms aims to provide an explanation of what these terms used in the brochure means.

BENEFIT PLAN

The benefits as set out in the rules of the Scheme and summarised in this Benefit Brochure on pages 13 and 26.

DEDUCTIBLE

A specific payment for which a member or beneficiary is personally liable which may be a percentage or a specific amount as stipulated in the rules of the Scheme.

DESIGNATED SERVICE PROVIDER (DSP)

This is a doctor, specialist or other healthcare provider TFGMAS has reached an agreement with about payment and rates for the purpose of Prescribed Minimum Benefits (PMB).

If you are registered on TFG Health Plus and you use the services of a designated service provider, we pay the provider directly at the Scheme Rate. We pay participating specialists at the Premier, Classic Direct or Scheme Rate for claims. We also pay participating general practitioners at the contracted GP rate for all consultations. You will not have to pay extra from your own pocket for providers who participate in the Premier and Scheme network arrangements, but may have a deductible for out-of-hospital visits to specialists on the Classic Direct Payment Arrangement if you are a member on TFG Health Plus.

DIRECT PAYMENT ARRANGMENT (DPA) SPECIALIST

A specialist medical practitioner who has entered into an agreement in respect of services rendered to members/beneficiaries on TFG Health.

FORMULARY

A list of preferred medicines considered by the Scheme to be the most useful in patient care, rated on the basis of clinical effectiveness, safety and cost.

HOSPITAL BENEFIT

The Hospital Benefit covers hospital costs and other accounts, like accounts from your admitting doctor, anaesthetist or any approved health care expenses, while you are in hospital, per your chosen Benefit Plan's benefits as set out in this brochure.

Examples of expenses covered are theatre and ward fees, X-rays, blood tests and the medicine you use while you are in hospital.

HOSPITAL NETWORK

The network of hospitals the Scheme contracted with to provide Hospital Benefits to members registered on TFGMAS.

KEYCARE NETWORK GP

A General Practitioner who has contracted with TFG Medical Aid Scheme to be part of the KeyCare Network.

MEDICAL EMERGENCIES

This is a condition that develops quickly, or occurs from an accident, and you need immediate medical treatment or an operation. In a medical emergency, your life could be in danger if you are not treated, or you could lose a limb or organ. Not all urgent medical treatment falls within the definition of PMB. **If you or any members of your family visit an after-hours emergency facility at the hospital, it will only be considered as an emergency and covered as a PMB if the treatment received aligns with the definition of PMB. Please note that not all treatment received at casualty units are PMB.**

PREAUTHORISATION

You need to inform TFGMAS if you plan/are scheduled to be admitted to hospital. Please phone us on **0860 123 077** for preauthorisation, so we can confirm your membership and available benefits. Without preauthorisation, you may have a deductible for which you will be personally liable. **Preauthorisation is not a guarantee of payment as it only aims to confirm that the treatment to be received in hospital is clinically appropriate and aligned with the benefits available.** We advise members to talk to their treating doctor so they know whether or not they will be responsible for out of pocket expenses, when they preauthorise the treatment.

There are some procedures or treatments your doctor can do in their consulting rooms. For these procedures you need to get preauthorisation. Examples of these are endoscopies and scans.

If you are admitted to hospital in an emergency, TFGMAS must be notified as soon as possible so that we can authorise payment of your medical expenses. We use certain clinical policies and protocols when we decide whether to approve hospital admissions. These give us guidance about what is expected to happen when someone is treated for a specific condition. These are based on scientific evidence and research.

PREMIER PLUS GP

A General Practitioner who has contracted with TFG Medical Aid Scheme to be part of the KeyCare Premier Plus network service providers.

PRESCRIBED MINIMUM BENEFITS

Prescribed Minimum Benefits is a set of minimum benefits that, by law, must be provided to all medical scheme members. The cover it gives includes the diagnosis, treatment and cost of ongoing care for a list of conditions. Please turn to page 36 for more information regarding your cover for PMB.

RELEVANT HEALTH SERVICES

A service as defined in the Act which is provided for in your chosen Benefit Plan.

SCHEME RATE

This is the rate in terms of an agreement between the Scheme and its service providers at which payment of relevant health services are paid. The Scheme Rate is a rate that we negotiate with service providers. In some instances cover is at, for example, 80% of Scheme Rate and in other instances at 100% of the Scheme Rate. If your doctor charges more than the Scheme Rate or the contracted fee in a Hospital Network Plan, such as TFG Health, we will pay available benefits to you at the Scheme Rate or negotiated rates.

Please consult your Benefit under the 'Rate' column to know when are claims paid at 100% of Scheme Rate and when at 80% of Scheme Rate.

SERVICE PROVIDERS

A medical practitioner, dentist, pharmacist, hospital, nurse or any other person or entity who is duly registered or licensed, as may be required, to provide relevant health services.

DAY-TO-DAY BENEFITS

GP Consultations and the Specialist Referral Process

TFG Health provides consultation benefits at network General Practitioners, once they have been chosen/registered as your designated primary healthcare provider. You will need to allocate a primary and a secondary GP for each of your dependants. Please enquire with your GP whether he/she is a dispensing doctor. To visit a Specialist your chosen GP will need to refer you to a Specialist. To access your consultation benefits on this Benefit Plan you will need to familiarise yourself with the following:

What you need to know:

Appointments with a specialist must only be made once the referral has been approved by your chosen KeyCare GP **and you have received a specialist authorisation number.** Routine check-ups should be done by your chosen TFG Health KeyCare GP. You will have to get authorisation for routine check-ups from a specialist that you have been referred to by your chosen KeyCare GP.

If you need to be admitted to hospital after your approved visit to the specialist – you need to phone us before you are admitted to get a hospital authorisation number. Call us on **0860 123 077** to get hospital preauthorisation.

If you have had surgery done in hospital and your specialist requires a follow-up visit you don't need to get another authorisation number as long as the visit is within the 30 days after your admission. For any other treatment you need to visit your chosen KeyCare GP for a follow-up visit, or when the consultation date falls outside the 30 day period.

Should you visit a specialist without a valid authorisation from us, you will have to pay and any treatment prescribed will be for your own pocket.

What you need to do:

Your chosen KeyCare GP must complete the KeyCare GP to Specialist referral form. Your GP should add any relevant test results and or motivations for the visit. You can find the form on www.tfgmedicalaidscheme.co.za.

Urgent specialist referral

If there is clinical reason for you to see the specialist the same day you saw the GP then your GP must contact us on **0860 123 077** or refer you to casualty at a Scheme network hospital.

Important to remember

Specialist claims will not be considered for reimbursement if there is no approved specialist referral prior to the visit. You will be liable for the specialist and related accounts in such instances.

The Alcohol, Substance and Drug Rehabilitation Benefit as PMB

As a TFG Health member you will receive cover for in-hospital alcohol, substance and drug detoxification and rehabilitation as a Prescribed Minimum Benefit (PMB).

The in-hospital management of alcohol, substance and drug, detoxification and rehabilitation are Prescribed Minimum Benefits, in terms of the Medical Schemes Act 131 of 1998, and will be covered.

As such the TFG Medical Aid Scheme covers alcohol, substance and drug detoxification in full at one of our DSP's for a maximum of three days for each approved admission. If you are admitted for alcohol, substance and drug detoxification, it must always be followed by an admission for rehabilitation.

We also cover alcohol, substance and drug rehabilitation at one of our DSP's for a maximum of 21 days in hospital each year. This is the maximum allowable days for each person on the Benefit Plan per year. Members can choose to be in treatment for a period shorter than 21 days in consultation with a healthcare provider.

Cover for alcohol, substance and drug detoxification and rehabilitation according to the Prescribed Minimum Benefits includes only in-hospital management. TFG Medical Aid Scheme does not pay for the out-of-hospital management and treatment for detoxification and rehabilitation on TFG Health, as it is not included as part of the Prescribed Minimum Benefits.

The Scheme has designated service providers (DSPs) for in-hospital alcohol, substance and drug detoxification and rehabilitation and you can visit the TFG Medical Aid

Scheme website at www.tfgmedicalaidscheme.co.za to access the list of DSPs for treatment on this Benefit Plan as a PMB where you will need to receive services to avoid deductibles.

The agreed rate that we pay these DSPs for includes cover for:

- Accommodation at the facility.
- Therapeutic sessions.
- Psychologist and/or psychiatrist consultations.
- Medicine for withdrawal management and aftercare.

If you choose to use a facility that is not a DSP, we will pay for alcohol, substance and drug detoxification and rehabilitation up to 80% of the Scheme Rate. You will be liable to pay the difference. Your deductible may be higher than 20% if your service provider charges more than the Scheme Rate.

Only where there is no DSP facility within a reasonable proximity to the place where you usually work or live, you may use any other accredited service provider and we may then consider to pay your treatment in full. Please discuss this with us when you contact us to preauthorise your treatment. We will tell you under what circumstances we pay the claims for alcohol, substance and drug detoxification and rehabilitation in full without any deductibles.

Dental and Oral Benefits

On TFG Health you have access to out of hospital dental treatment at a Network provider. You'll also receive cover for severe dental surgery as part of the Severe Dental and Oral Surgery Benefit as set out below.

Please note that we do not cover in-hospital dental treatment on this Benefit Plan.

Your Cover on TFG Health summarised:

Severe Dental and Oral Surgery Benefit

The Severe Dental and Oral Surgery Benefit covers a defined list of procedures, with no upfront payment and no overall limit. This benefit is subject to authorisation and the Scheme's rules.

You must preauthorise your admission to hospital at least 48 hours before you go in. Please call **0860 123 077**. You can also apply for approval by sending an email to preauthorisations@discovery.co.za.

For planned hospital admissions, you have full cover for the hospital account in the Full Cover Hospital Network and up to 70% of the Scheme Rate in the Partial Cover Hospital Network. If you use a hospital outside the network you will have to pay these costs from your pocket.

Other dental treatment in hospital

- One eye test;
- One pair of white single vision, bifocal or multifocal lenses, or

You can find optometrists in the IsoLeso group on www.tfgmedicalaidscheme.co.za

Trauma and Recovery Extender Benefit (TREB)

As a TFG Health member you will have access to the Trauma Recovery Extender Benefit (TREB).

This benefit helps to provide access to funds after certain traumatic events by giving you access to cover for certain day-to-day treatment after you are discharged from hospital. The benefit pays the day-to-day medical care costs of the traumatic event in the year it happened and in the year after it happened from a list of sub-limits.

You will not qualify for the Trauma Recovery Extender Benefit if the traumatic event happened in a previous benefit year while you were on a Benefit Plan type that did not offer this benefit or while you were a member of another medical scheme. You have to be a member of the TFG Medical Aid Scheme and registered on TFG Health **at the time that the trauma happens** to qualify for cover from the Trauma Recovery Extender Benefit.

The benefit covers only the claims for the member who is registered for the benefit and claims that are related to the original diagnosis after the specific trauma. Members must meet the clinical entry criteria to access cover on the Trauma Recovery Extender Benefit. If the event meets the clinical entry criteria the benefit will be activated after you have been admitted for one of the specific traumas and the event has been appropriately reviewed and the benefits approved.

Your TREB benefit in a glance:

Cover for Specialists and other healthcare professionals on TFG Health from TREB

We pay accounts for specialists, GPs and other healthcare professional claims, including pathology and radiology up to 100% of the Scheme Rate. If you use a healthcare professional who we have a payment arrangement with, the agreed rate will apply and we will pay them direct.

You must visit your chosen KeyCare Network GP.

You have unlimited specialist visits for the treatment after the trauma (these do not add up to the Specialist Benefit).

You need to contact us for a reference number to confirm your benefits. Get your GP to contact us to see if you need to visit a specialist.

You will have unlimited radiology and pathology cover and no formularies apply. All other day-to-day services rules remain the same for cover from the Trauma Recovery Extender Benefit.

- Call us on **0860 123 077** for assistance.

On TFG Health you will receive treatment that is recognised as a Prescribed Minimum Benefit (PMB) at a Network Provider.

You have cover for approved chemotherapy, radiotherapy and other treatment prescribed by your cancer specialist in the Scheme Network (ICON network) from the Oncology Benefit. If you use a cancer specialist who is not in the Network, the Scheme will pay 80% of the Scheme Rate and you need to pay the balance from your pocket.

The Scheme also covers pathology, radiology, medicine and other approved cancer-related treatment that is provided by healthcare professionals other than your cancer specialist.

The Scheme must approve your treatment before we can pay it from the Oncology Benefit. This treatment must be in line with agreed protocols and medicine lists (formularies).

Cancer treatment that falls within the Prescribed Minimum Benefits is always covered in full, with no deductible. **This is if you use service providers who we have a payment arrangement with** and if they do not charge above the agreed rate.

Inclusion of chemotherapy, radiotherapy and other healthcare services paid from the Oncology Benefit will be subject to consideration of evidence-based medicine, cost effectiveness and affordability.

Healthcare services that are deemed by the Scheme as unaffordable and/or not cost effective and/or lacking clinical evidence to demonstrate efficacy are excluded from cover.

Check what benefits apply to your specific treatment by discussing your treatment plan with your treatment doctor.

You have full cover in our designated service provider networks and for providers who we have a payment arrangement with you can benefit by using doctors and other healthcare providers like hospitals, pharmacies, radiologists and pathologists we have a payment arrangement with, because the Scheme will cover their approved procedures/services in full. If your healthcare provider charges more than what the Scheme pays, you need to pay the difference from your pocket for professional services such as consultations.

To find healthcare service providers we have a payment arrangement with, use the MaPS tool on www.tfgmedicalaidscheme.co.za or call us on **0860 123 077**.

Remember

Please use our DSPs for approved oncology medicine claims to avoid a 20% deductible. Speak to your treating doctor and confirm that they are using our DSPs for your medicine and treatment received in rooms or in a treatment facility.

For approved oncology-related medicine where your doctor has provided a script please use a MedXpress Network Pharmacy.

We will pay your approved medicine in full if it is on our medicine list (formulary). If your approved medicine is not on our medicine list, we will pay your chronic medicine up to a set monthly amount, called the the Chronic Drug Amount (CDA), for each medicine class.

If you use more than one medicine in the same medicine class, where both medicine are not on the medicine list, or where one medicine is on the medicine list and the other is not, we will pay for both medicines up to the one monthly CDA for that medicine class.

On TFG Health Plus, you have further cover for medicine for Additional Disease List (ADL) conditions. There is no medicine list (formulary) for these ADL conditions. Approved medicine for these conditions will be funded up to the monthly CDA for that medicine class, up to an annual limit.

You can obtain your approved chronic medicine from any pharmacy or dispensing GP.

If your PMB CDL condition is approved, the Chronic Illness Benefit will automatically open access to cover for a limited number of selected tests, procedures and/or specialist consultations for the diagnosis and ongoing management of your condition. You will also have cover for four (4) GP consultations related to your approved PMB CDL condition(s) per year.

The number of tests and consultations are calculated based on the number of months left in the year at the time your condition is approved. If you have cover for the same procedures or tests for more than one condition, funding will be limited to the basket that gives you the most procedures or tests.

If you want to access cover from the Chronic Illness benefit, you must apply for it. You need to complete a Chronic Illness Benefit Application form with your doctor and submit it for review. You can get your latest application form on the website www.tfgmedicalaidscheme.co.za.

For a condition to be covered from the Chronic Illness Benefit, there are certain benefit entry criteria that needs to be met. You or your doctor may need to provide certain test results or extra information and motivation to finalise your application. The application form will give you the details as to which documents and extra information you

will need to submit. Please ensure that these documents are submitted with your application.

Remember, if you leave out any information or do not provide medical test results or documents needed with the application, cover will start from the date we receive the outstanding information.

IMPORTANT INFORMATION RELATING TO BOTH THE TFG HEALTH AND

THE TFG HEALTH PLUS BENEFIT PLANS

On TFG Health Plus, home nursing and step down facility benefits are made available and more information can be obtained from the contact centre in respect of the rate per day. The amounts reflected above are an indication of the total amounts available per year, which is subject to the daily limits applicable.

Scheme Rate = This is the amount of money the Scheme pays for a specific type of medical procedure, treatment or consultation. There are, however, certain healthcare professionals with whom the Scheme has negotiated rates. The negotiated rate replaces the Scheme Rate in those instances with a Network Rate.

Maximum annual benefits referred to will be calculated from 1 January 2019 to 31 December 2019, based on the services provided during the year and will be subject to pro rata apportionment calculated from the joining date to the end of the benefit period. Benefits are not transferable from one benefit period to another or from one category to another. Optical benefits are not applied on a pro rata basis. This is not an annual benefit, but a benefit that is available over a two-year period from the date that you join the Scheme. Oncology benefits are not an annual benefit but granted from date of diagnosis, following registration on the Oncology Programme. Benefits are made available over a 12 month rolling period from date of diagnosis.

Accounts from your doctor and other healthcare services

Related accounts include any account other than the hospital account. Examples of related accounts are the account from the admitting doctor, anaesthetist and any approved healthcare expenses, like radiology or pathology, that you incur during your hospital stay. Refer to the section 'Related accounts' in the table on page 36 for more information about how your chosen Benefit Plan cover you for accounts from your doctor and other healthcare services obtained in hospital.

Please contact us to preauthorise your benefits before you receive treatment or extend your hospital stay.

Before you go to hospital for any planned procedure, you must:

- See your doctor who will decide if it is necessary for you to be admitted and who may refer you to a specialist for admission to hospital.
- Make sure you know how the account from your admitting doctor will be covered.
- Choose which hospital you want to be admitted to by using the MAPS tool available or consult the list of Scheme Network hospitals as set out in the TFG Health Benefit Guide or contact us to assist you to find a hospital in the network.
- Find out how we cover other healthcare professionals, for example, your anaesthetist.
- Call us on **0860 123 077** to preauthorise your hospital admission at least 48 hours before admission. We will give you information that is relevant to how we will pay for your hospital stay. A deductible will be levied on the hospital account if preauthorisation is not obtained, except in an emergency.
- Please refer to the cover for medical emergencies for more information.

Cover is subject to the Scheme rules

We pay medically appropriate claims. Your cover is subject to our Scheme rules, funding guidelines and clinical rules. There are some expenses that you may incur while you are in hospital that your Hospital Benefit does not cover. **Familiarise yourself with the Scheme Rate applicable per your chosen Benefit Plan and the possible deductibles where you are being serviced by a provider who is not on the network or contracted with the Scheme.** Please be aware that certain procedures, medicines or new technologies need separate approval while you are in hospital.

Please discuss your admission with your Service Provider or the hospital. Use our online MaPS Advisor, available on www.tfgmedicalaidsscheme.co.za to find a provider that is contracted with the Scheme.

The procedures covered in our Day Surgery Network: is available on www.tfgmedicalscheme.co.za.

PRESCRIBED MINIMUM BENEFITS (PMB)

Cover for Prescribed Minimum Benefits

Prescribed Minimum Benefits is a set of minimum benefits that, by law, must be provided to all medical scheme members. The cover it gives includes the diagnosis, treatment and cost of ongoing care for a list of conditions.

The list of conditions is defined in the Medical Schemes Act 131 of 1998.

The Prescribed Minimum Benefits make provision for the cover of the diagnosis, treatment and ongoing care of:

- 270 diagnoses and their associated treatment
- 26 chronic conditions
- Emergency conditions.

In most cases, TFG Medical Aid Scheme offer benefits that cover far more than the Prescribed Minimum Benefits. To access Prescribed Minimum Benefits, there are rules that apply:

- Your medical condition must qualify for cover and be part of the list of defined Prescribed Minimum Benefit conditions
- The treatment needed must match the treatments offered in the defined benefits
- If you are outside of the benefit limit you must use designated service providers in the network. This does not apply in life-threatening emergencies, however, even in these cases, where appropriate, and according to the rules of the Scheme, you may be transferred to a designated service provider, otherwise a deductible will be levied. You will be responsible for the difference between what we pay and the actual cost of your treatment, where applicable.

YOU HAVE ACCESS TO PATIENT MANAGEMENT PROGRAMMES TO GET THE BEST CARE ON BOTH TFG HEALTH AND TFG HEALTH PLUS AS FOLLOWS:

DiabetesCare

Our DiabetesCare programme together with your KeyCare Premier Plus GP, will help you manage your condition. A KeyCare Premier Plus GP is a KeyCare network GP who has contracted with us to provide you with high quality healthcare for your condition.

You and your GP can track progress on a personalised dashboard displaying your unique management score for your condition. This helps to identify the next steps to optimally manage your condition and stay health over time.

The DiabetesCare programme also unlocks cover for additional services from dietitians and biokineticists. Any member registered on the Chronic Illness Benefit for diabetes can join the DiabetesCare programme.

You will have to use a KeyCare Premier Plus GP to manage your condition to avoid a 20% deductible.

CompassionateCare

The CompassionateCare Benefit gives you access to holistic home-based end-of-life care up to R40 450 for each person in their lifetime on both TFG Health and TFG Health Plus.

Advanced Illness Benefit (AIB)

Members with cancer have access to a comprehensive palliative care programme. This programme offers unlimited cover for approved care at home.

Cleveland Clinic MyConsult

As a member of the TFG Medical Aid Scheme (TFGMAS) you also have access to the International clinical review service benefit.

TFG Medical Aid recognise that South African specialists offer exceptional quality of care through their high levels of expertise and knowledge, however, there are times when a specialist may want to collaborate with other experts in a certain field of medicine, especially when their patients are facing life-threatening and life-changing conditions, particularly when this involves the use of new treatment modalities.

Where members have multiple severe illnesses and want an international team to review their case, the members may ask their specialist to assist them in obtaining a second opinion for these conditions and for those that affect the quality of their life.

As a TFG Medical Aid Scheme member you have the opportunity to get an online second opinion from a Cleveland Clinic physician specialist. For more information please consult with your chosen Network GP or contact the Scheme at **0860 123 077**.

YOU GET SCREENING AND PREVENTION BENEFITS ON BOTH TFG HEALTH AND TFG HEALTH PLUS

Preventative screening is important to ensure that medical conditions are detected early.

As a TFG Medical Aid Scheme member, you have access to screening and prevention benefits at any one of our wellness providers. The preventive tests, screening and flu vaccinations must be referred and done by an appropriately registered healthcare professional, and network provider where applicable.

The Screening and Prevention Benefit does not cover the cost of any related consultations.

Consultations are covered from the available funds in your day-to-day benefits, unless it relates to a Prescribed Minimum Benefit diagnosis.

Tests that the Screening and Prevention Benefit covers: We will not use your available day-to-day benefits to pay for these screening tests. Consultations and related costs are paid from your available day-to-day benefits, unless it relates to a PMB diagnosis.

Once you have reached the frequency limit for the tests, any additional screening and preventive tests will be paid from your available day-to-day benefits.

We will pay for these healthcare services as long as you use a provider who is appropriately registered with the Board of Healthcare Funders (BHF), and provided that this healthcare service or product has a valid tariff code or NAPPI code, ICD-10 code and price.

Screening for adults

The Screening and Prevention Benefit covers certain tests such as blood glucose, blood pressure, cholesterol, body mass index and HIV screening at one of our wellness providers. We also cover a mammogram at least every two years, a Pap smear at least once every three years and a PSA test (prostate screening) each year, depending on your chosen Benefit Plan.

Screening for kids

This benefit covers growth assessment tests, including height, weight, head circumference and health and milestone tracking at any one of our wellness providers.

How we pay

These tests and consultations do not affect your day-to-day benefits as they are paid from the Screening and Prevention Benefit. Consultations that do not form part of PMB will be paid from your available day-to-day benefits.

If you attend a Premier Wellness Event held by your Scheme, you may qualify for the following additional tests:

TFGMAS AND THE APPLICATION OF WAITING PERIODS (WP) AND LATE-JOINER PENALTIES (LJP)

The Medical Schemes Act 131 OF 1998, as amended, allows medical aid schemes to impose the following waiting periods and late joiner penalties on members applying to join a medical aid scheme:

- A general waiting period no longer than three months.
- A condition-specific waiting period no longer than 12 months.
- A late-joiner penalty.

TFGMAS applies legislation when members and their dependants join the Scheme by dividing applicants into three groups for underwriting, as follows:

1. Waiting periods (WP)

1.1 Category A

Applicants that have had no previous medical cover or have allowed a break of more than 90 days in membership since resigning from their previous medical aid scheme.

1.2 Category B

Applicants who have had less than two years' cover and applied to join TFGMAS less than 90 days after resigning from their previous medical aid scheme.

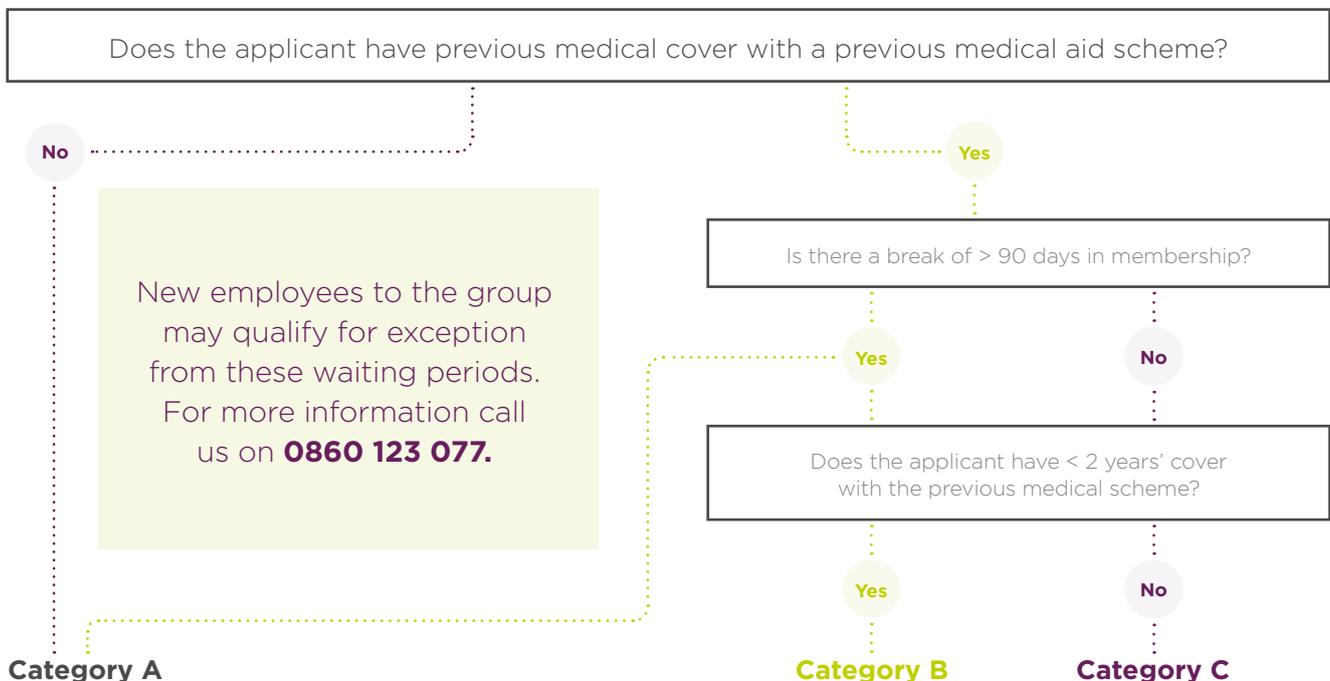

1.3 Category C

Applicants who have had two years' or more cover and applied for cover less than 90 days since the date of resigning from their previous medical aid scheme.

The applicable waiting periods therefore depend on the category the members/dependants fall in.

The flowchart below sets out for illustrative purposes, the categories, per legislation, that are used in determining whether a waiting period and late joiner penalty (LJP) may be applied.

It is important to note that TFGMAS don't apply waiting periods on new employees who have not been members of a medical scheme in the past when applying for employment and membership of TFGMAS at the same time.

2. Late-joiner penalties

The Council for Medical Schemes defines a late joiner as follows:

'A late joiner is an applicant or the adult dependant of an applicant who at the date of application for membership of admission as a dependant, as the case may be, is 35 years of age or older, but excludes any beneficiary who enjoyed coverage with one or more medical schemes preceding 1 April 2001, without a break in coverage exceeding three consecutive months since 1 April 2001.'

What this means

Late-joiner penalties can be applied where:

- An applicant, or dependant of an applicant is aged 35 years or older at the time of registration and
- The date of employment and date of registrations is not the same and
- Proof of membership with a medical aid scheme on 1 April 2001 cannot be provided and
- Date of joining the Scheme is not within 90 days of resigning from the previous medical aid scheme and/or
- More than 90 days' consecutive break in coverage between medical aid schemes exist.

The late-joiner penalty could be imposed on the contributions payable. The penalty does not affect benefits, but will increase contributions for the duration of the membership.

The penalty is only calculated on the member or dependant's portion of the contribution. TFG does not subsidise the LJP.

The penalty will apply for the duration of the membership.

2.1 Penalty Bands

Penalty bands	Maximum penalty
1 - 4 uncovered years	5%
5 - 14 uncovered years	25%
15 - 24 uncovered years	50%
25+ uncovered years	75%

2.2 Calculation of uncovered years

Age of member minus (35+ creditable coverage)
= uncovered years.

For instance, if the applicant is 58 years old on the date of registration and belonged to another medical aid scheme for 12 years (membership certificate attached as proof), the following LJP penalty band would apply:

58 - (35+12) = 11 uncovered years = 25% LJP.

To ensure fairness and consistency, TFGMAS Board of Trustees approved an Underwriting and Eligibility Policy. This document is used by the administrator when receiving applications for processing.

EX GRATIA POLICY

Ex gratia is defined by the Council for Medical Schemes (CMS) as 'a discretionary benefit which a medical aid scheme may consider to fund in addition to the benefits as per the registered rules of a medical scheme. Schemes are not obliged to make provision there for in the rules and members have no statutory rights thereto'. The Board of Trustees may in its absolute discretion increase the amount payable in terms of the rules of the Scheme as an *ex gratia* award.

The Board has appointed an *ex gratia* committee who review these applications received and this committee is mandated to act on behalf of the Board in making decisions on behalf of the Trustees and the Scheme in this regard. Decisions taken by this committee are final and are not subject to appeal or dispute.

Claiming correctly is essential because when you submit a claim incorrectly there is always a possibility that you will be held responsible for a deductible.

REMEMBER THESE IMPORTANT POINTS SO YOU CAN CLAIM CORRECTLY AND AVOID DEDUCTIBLES:

2. Check all your details against your membership card, especially your membership number.

5. If you are sending your claim, please send the original copy with your correct member number.
6. Make sure you send us a detailed claim and not just a receipt. We need the details so we can process your claim. Make sure you have the following details:
 - Your membership number.
 - The service date.
 - Your healthcare professional's details and practice number.
 - The amounts charged.
 - The relevant consultation, procedure, NAPPI or diagnostic (ICD-10) codes.
 - For a dependant, the name and birth date of the dependant who received treatment.

HOW TO GET THE MOST OUT OF YOUR CLAIM STATEMENT

Every time you submit a claim to TFG Medical Aid Scheme, you will receive a claim notice by email, which will tell you how we processed your claim. Your claims statement gives you more details of how we have paid your claims and what your available benefits are.

YOUR MEDICAL INFORMATION IS CONFIDENTIAL

1. On the first page, you'll see an overview of your Benefit Plan details. You'll also see a summary of your statement, showing a total value of the claims paid, or not paid, to you or your provider.
2. Here you are given a breakdown of what claims were paid in full (at the Scheme Rate), in part or not paid, along with reasons. The second page is a detailed statement in one table, showing all your claims for each service provider and the name of the patient/dependant to whom the claim relates.
3. The final section shows an overview of your non-hospital claims and benefit related financial transactions to the date of the statement, if applicable. This further detail ensures that you are better able to manage your benefits.

We have received some queries about why medicine names aren't specified on claims statements. It is important for us to protect your privacy by not giving out confidential medical information.

Although all the medicine details are on the pharmacy's statement, we also keep the detailed information on our system and will be able to provide it to you. You can get it from us in one of the following ways:

COMPLAINTS AND DISPUTES

What to do when you have a query or complaint that remains unresolved. The Medical Schemes Act 131 of 1998 (the Act) states that members who are aggrieved with the conduct of a medical scheme or want to dispute a decision taken by their medical scheme have the right to contact the Council for Medical Schemes (CMS) for a dispute resolution. The Act also sets out the complaints procedure that must be followed.

Members must first try to resolve the matter with their medical scheme and only contact CMS if they are still in disagreement with the medical scheme. The Scheme's Dispute Resolution Process requires that you follow the following steps:

Step 1:

Contact the administrator, Discovery Health, through the contact centre on **0860 123 077** or email us at **service@discovery.co.za** and lodge the complaint or dispute.

Step 2:

If the matter remains unresolved or the feedback received is not to your satisfaction, the matter can be escalated to the Principal Officer of the Scheme, Ms Caron Harris, who will direct the matter in line with the Disputes Process of the Scheme for resolution.

Step 3:

Once feedback is provided, members who thereafter are still in dispute with their Scheme can contact the Council for Medical Schemes.

The contact details for the Council for Medical Schemes are as follows:

- Physical address: Block A, Eco Glades 2 Office Park, 420 Witch-Hazel Avenue, Eco Park, Centurion 0157.
